Cheerio Contest 1 J1 - Pronounceable Words

Time limit: 1.0s   **Memory limit:** 512M

A word is considered *pronounceable* if it consists of letters alternating between vowels and consonants. Given a word, determine whether it is pronounceable.

The letters `aeiou` are vowels, while the rest are consonants.

Constraints

For all test cases:

- The word length will not exceed $1\,000$ characters.

Note: You must pass all test cases in order to earn points on this problem.

Input Specification

The first and only line contains a single word containing only lowercase letters.

Output Specification

Output `YES` if the word is pronounceable. Otherwise, output `NO`.

Sample Input 1

```
bananas
```

Sample Output 1

```
YES
```

Sample Input 2

```
cheerio
```

Sample Output 2

NO
