Mock CCC '18 Contest 5 J1 - Looking for the CCC

Time limit: 1.0s   **Memory limit:** 1G

Given a string, determine if it contains `CCC` as a substring.

Constraints

The string will be of length at most 10.

The string will only contain uppercase letters.

Input Specification

The input consists of a single string, the given string.

Output Specification

Output, on a single line, `YES` if `CCC` is **not present** in the string.

Output `NO` otherwise.

Sample Input 1

```
CCC
```

Sample Output 1

```
NO
```

Sample Input 2

```
TUDOR
```

Sample Output 2

YES
