

Perl Golf

Time limit: 1.0s **Memory limit:** 16M

Perl programs are a form of art. To show your understanding of this art form, you are invited to create an artwork! Your artwork is simple, print the string `Don Mills Online Judge`. You will be graded based on the length of your program.

Input Specification

There may be input. However, there may not be more than 0 bytes of input.

Output Specification

You are to output `Don Mills Online Judge`.

Sample Input

Wait, what?

Sample Output

```
Don Mills Online Judge
```

Grading

You will receive $(\frac{83}{N})^2 \times 15$ points, where N is the length of your program. If your program `/\w/`, then you will receive a score of zero.
