

TLE 2018-19 P4 - Fax McClad and the Melee

Time limit: 2.0s **Memory limit:** 256M

Fax McClad, Croneria's top-tier bounty hunter, is caught in a Melee with a very strong opponent.

Fax sees an opening in his opponent's defense, but doesn't know exactly how to punish.

You will help Fax punish by issuing 80 attack commands.

Can you help Fax win the Melee?

There are also spectators - try your best to impress them with flashy combos!

Fax and Flaco are practicing for the Melee.

Input Specification

The only line of input will contain a string, the name of the opponent. This string will not be very long, nor be unreadable using standard methods.

Output Specification

Output 80 lines. Each line will contain the name of an attack that Fax should do to punish his opponent in the Melee. Each line must be no more than 20 characters.

Sample Input

Roy
